

"HAZARDOUS CHEMICALS"

The following chemicals are commonly found in cleaning and maintenance products.

ARE any listed on labels of the products you're using?

(Source: Department of Health, State of Texas)

CHEMICAL	CONSEQUENCES
Anti-bacterial soaps	
Triclosan	Easily absorbed through your skin and attacks your liver.
Toilet Bowl Cleaners	
Hydrochloric Bleach	Fumes burn your eyes, skin, throat, lungs, liver and heart. Causes vomiting.
Bug Remover (from vehicles)	
Xylene	Skin irritant. Fumes damage your lungs, nose and eyes.
Carpet Cleaners	
Ammonium Hydroxide	Corrosive to touch. Fumes cause long-term damage to your eyes and lungs.
Perchloroethylene	Carcinogenic. Damages your liver, kidneys and central nervous system
Cleaners & Detergents	
Ammonia	Highly volatile. Damages your eyes, and skin. Fumes damage your lungs.
Ammonium Hydroxide	Corrosive. Irritant to your lungs, eyes and skin
Bleach	Burns your eyes and skin and lungs. Causes vomiting, heart problems.
Butyl	Suspected carcinogen. Damages your eyes, lungs and skin.
Diethylene glycol	Fumes harm your central nervous system, liver and kidneys
Formaldehyde	Highly toxic carcinogen. Present in most carpet, fabrics and coloring.
Hydrochloric Bleach	Fumes burn your lungs, eyes & skin. Causes vomiting and heart problems.
Isopropanol	Carcinogen. Damages your lungs and nervous system. Distorts your DNA

Petroleum Solvents	Fire danger. Irritates your skin, eyes, nose, throat & lungs. Skin cancer.
Potassium Hydroxide	Caustic. Burns your eyes and skin. Fumes cause internal tissue damage
Sodium Hypochlorite	Highly toxic. Burns eyes and skin. Causes lung edema, coma and death.
Trichloroethane	Destroys your liver, kidneys and central nervous system.
Triclosan	Easily absorbed through your skin. Causes liver damage.
Degreasers	
Petroleum Solvents	High fire danger. Irritates skin, eyes, throat & lungs. Skin & lung cancer.
Dish Washer Detergents	
Chlorine	Fatal. #1 cause of child poisonings. Burns skin & eyes. Attacks tissue cells.
Diethanolsamine	Poisons your liver
Naphtha	Depresses and damages your central nervous system
Disinfectants	
Bleach	Burns eyes and skin and lungs. Can cause vomiting and heart problems.
Cresol	Attacks your liver, spleen, pancreas & central nervous system
Phenyphenol	Fire danger. Eye irritant. May damage your vision
Drain Cleaners	
Hydrochloric Acid	Highly corrosive. Damages your liver, kidneys, lungs, skin and eyes.
Trichloroethane	Damages your liver, kidneys and central nervous system.
Furniture Polish	
Diethylene glycol	Fumes harm your central nervous system, liver and kidneys
Petroleum Distillates	Fire danger. Carcinogenic. Linked to lung and skin cancer.
Phenol	Causes cold sweats, convulsions, circulatory collapse, coma and death

Glass Cleaners	
Ammonia	Highly volatile. Fumes damage your eyes, skin and lungs.
Diethylene glycol	Fumes harm your central nervous system, liver and kidneys
Laundry	
Ammonia	Highly volatile. Fumes damage your eyes, skin and lungs.
Bleach	Burns eyes, skin & lungs. Can cause vomiting, pulmonary edema and coma
Calcium Hypocrite	Burns your skin and eyes. Fumes damage your lungs
Chlorine	Burns your skin & eyes. Fumes attack your internal tissue cells.
Linear Alkyl ate Sulfonate	Residue on clothes absorbed through skin. Suspected cause of liver damage
Sodium Tripolyphosphates	Absorbable via skin from clothes. Damages tissues & mucous membranes.
Lice Poison	
Lindane	Causes vomiting, convulsions, liver damage, cancer and birth defects.
Resorcinol	Breathing difficulties, rapid heartbeat, unconsciousness and convulsions
Pesticides & Flea Powders	
Carbaryl	Highly toxic. Fumes damage your lungs, skin and cardiovascular system.
Chlorinate Hydrocarbons	Attacks central nervous system. Accumulates in tissue cells. Carcinogenic.
Chlorprifos	Fumes are toxic to your brain cells. Causes decline in mental functions
Diazinon	Damages liver, kidneys, and lungs. Causes brain hemorrhage and death
Dichlorophene	Kills by attacking central nervous system. Damages your liver, spleen and lungs. Attacks your brain. Causes loss of memory and mental functions.
Dimpylate	Extremely toxic. Attacks your central nervous system
Organophosphorus	Highly toxic. Attacks your central nervous system
Vehicle Care	

Petroleum Distillates	Fire danger. Carcinogenic. Linked to lung and skin cancer.
Petroleum Solvents	Fire danger. Irritates skin, eyes, nose & lungs. Causes skin & lung cancer.
Xylene	Skin irritant. Fumes cause eye, nose and lung damage.
